

### LIBERO W -

# **Available Certificates**

+ elpro.com

### 1. Production Calibration Certificate

During production process components of the sensor are calibrated:

PCB - electrical calibration at -35 °C, 0 °C and +50 °C Sensor element - thermal bath calibration at 0 °C, 15 °C and 25 °C

- Production Calibration Certificate shows Calibration date but has no expiry date
- The customer can download and print the calibration certificate using Sensor's ID anytime here: http://compliance.elpro.com/

Certificate for LIBERO ID	83001451
LIBERO sensor type	LIBERO WSI
Calibration date	01. Nov. 2017
	•

### Measuring results

	Result	Unit	Rated	Observed	Diference	Allowed tolerance	Uncertainty	Sandard
Electrical Calibration	passed	°C	-10.00	-9.90	0.10	±0.20	0.13	LBWT-DIB-R6-1
Electrical Calibration	passed	*0	25.00	25.00	0.00	±0.20	0.13	LBWT-DIB-R0-1
Electrical Calibration	passed	°C	50.00	50.10	0.10	±0.30	0.13	LBWT-DIB-R6-1
Temperature Calibration	passed	•0	0.00	see below	see below	±0.30	0.19	PM193
Temperature Calibration	passed	*C	15.00	see below	see below	±0.30	0.19	PM193
Temperature Calibration	passed	°C	25.00	see below	see below	±0.30	0.19	PM193

The sensor used in LIBERO ID 83001451 is from lot NDTA160330-3W-26.

Version: 1.3 | Page 1/1

### 2. Manufacturer's Validation Certificate

After receiving LIBERO W delivery from Malaysia 2-level incoming goods inspection is executed on a representative random samples, so-called validation.

A representative sample check incl. system calibration is performed at these calibration points:

**Sensor LIBERO WSI** is calibrated at -35 °C, 0 °C, +25 °C and +50 °C and +50 °C

 The customer will receive Manufacture's Validation. Certificate together with a delivery note

ELPRO-BUCHS AG | Langaeulistrasse 45 F+41 81 552 08 08 | swiss@elpro.com

### Hersteller-Validierungszertifikat / Manufacturer's Validation Certificate

Zertifikat-Nr. / Certificate No. 1011039984-1 Erstellungsdatum / Created on 4. Sept. 2018 Gültigkeit des Zertifikats / Validity of Certificate Ende Sent / End of Sent 2020 Artikelnummer / Part No. 801415 Artikelbezeichnung / Product Name LIBERO W SET INT Menge / Quantity

ELPRO führt eine 100% Temperaturkalibrierung aller Sensoren sowie eine 100% elektrische Kalibrierung während der Produktion durch. Zusätzlich werden in einer repräsentativen Stichprobenkontrolle die Messeenauigkeit und Gerätefunktionen überprüft und dokumentiert. ELPRO bestätigt, dass die aufgeführten LIBEROs gemäss den ELPRO-Qualitätsrichtlinien hergestellt wurden und alle Tests bestanden haben.

ELPRO performs a 100% temperature calibration of all sensors plus a 100% electrical calibration during assembling. Additionally, the measurement accuracy and device functionality is verified and documented with a representative sample check. ELPRO certifies that the LIBEROs mentioned hereafter have been manufactured according to ELPRO's Quality Assurance guidelines and have passed all tests.

### Validierungsmethode / Validation Method Jeder Temperatursensor wird bei folgenden Punkten kalibriert: Each temperature sensor is calibrated at these calibration points Toleranz von / tolerance of ± 0.3 °C bestanden / passed

+25 °C Toleranz von / tolerance of ± 0.3 °C Für LIBERO W mit Produktions Kalibrierdatum vor dem 01. Aug. 2018 For LIBERO W with Production Calibration Date before 01 Aug. 2018

+15 °C Toleranz von / tolerance of ± 0.3 °C

Alle LIBEROs werden während der Produktion bei folgenden Punkten elektrisch kalibriert: All LIBEROs are electrically calibrated during assembling at these calibration points -10 °C Tolerany you / tolerance of ± 0.2 °C hestanden / passed +25 °C Toleranz von / tolerance of ± 0.2 °C bestanden / passed

Eine Stichprobenkontrolle inkl. Systemkalibrierung wird bei folgenden Punkten durchgeführt: A representative sample check incl. system calibration is performed at these calibration points

+50 °C Toleranz von / tolerance of ± 0.3 °C bestanden / passed -10 °C Toleranz von / tolerance of ± 0.5 °C bestanden / passed 0 °C Toleranz von / tolerance of ± 0.5 °C bestanden / passed +25 °C Toleranz von / tolerance of ± 0.5 °C +50 °C Toleranz von / tolerance of ± 0.9 °C bestanden / passed

Für LIBERO W mit Produktions Kalibrierdatum nach dem 01. Aug. 2018 For LIREPO W with Production Calibration Date after 01 Aug 2018:

Alle LIBEROs werden während der Produktion bei folgenden Punkten elektrisch kalibriert: All LIBEROs are electrically calibrated during assembling at these calibration points: -35 °C Toleranz von / tolerance of ± 0.4 °C bestanden / passed

Toleranz von / tolerance of ± 0.2 °C bestanden / passed +50 °C Toleranz von / tolerance of ± 0.3 °C bestanden / passed

Fine Stichprobenkontrolle inkl. Systemkalibrierung wird bei folgenden Punkten durchgeführt: A representative sample check incl. system calibration is performed at these calibration points -35 °C Toleranz von / tolerance of ± 1.0 °C bestanden / passed

0 °C Toleranz von / tolerance of ± 0.4 °C bestanden / passed +25 °C Toleranz von / tolerance of ± 0.4 °C bestanden / passed +50 °C Toleranz von / tolerance of ± 0.8 °C bestanden / passed

### 3. Manufacturer's Calibration Certificate

Manufacture`s Calibration Certificate is a Service offered by ELPRO.
 The customer can order customized and specific calibration at any calibration point within the measuring range.

 After performing a customer specific calibration the Manufacture's Calibration Certificate is delivered together with other delivery documents.

## 4. Calibration Certificate - according to the national standard

- Calibration Certificate is a Service offered by ELPRO.
  The customer can order customized and specific calibration at any calibration point within the accreditation.
- ISO / IEC 17025 International Organization for Certification
- SCS (Swiss Accreditation Service) at ELPRO-BUCHS AG, ELPRO Messtechnik GmbH and ELPRO UK Ltd.
- NIST (National Institute of Standards and Technology at ELPRO Services, Inc., USA
- After performing a customer specific calibration the Manufacture's Calibration Certificate is delivered together with other delivery documents.
