

## Configuration example: pharmacy

Two fridges and a sales room to be monitored using the existing WLAN infrastructure - **6 measuring points**.

elproMONITOR, gehostet auf ELPRO-Servern

Hardware: 1 x ECOLOG-PRO 2PTW  
2 x ECOLOG-PRO 1THW

No IT , no software needed: all data in the ECOLOG Cloud and always up to date!

### Cost efficiency

- Zero investment for GxP compliant monitoring – only periodic fees per sensor

### Easy set-up and always up to date

- Fully automated
- Simple to install – order the wireless transmitter, check in online, get started
- Always have the latest version of ELPRO's best-in-class monitoring solution available

### Compliant and secure

- Carefree compliance – automated GxP compliant reports
- Data stored on highly secure ELPRO servers
