

09. April 2020

RoHS and REACH Compliance Declaration, Directive 2011/65/EU, 2015/863/EU and 1907/2006/EU

The intention of this declaration is to inform you of the internationally valid regulations on RoHS (Regulation EU 2015/863) and REACH (Regulation EC No. 1907/2006).

As a part of ELPRO's environmental protection policy, we are committed to use materials more efficiently, reduce the amount of materials used in our products, and find alternatives for hazardous materials.

Declaration of conformity RoHS (2011/65/EU & 2015/863/EU)

ELPRO is aware of the RoHS regulation, and has identified and fulfilled the corresponding tasks and obligations according to the EU regulation to the best of its knowledge. Every new hardware solution is carefully developed and suppliers are required to disclose the relevant evidence. Thus, we also regularly clarify the RoHS conformity of our hardware solutions as a whole with our suppliers. To the best of our knowledge, the solutions produced and marketed by ELPRO do not contain any prohibited substances above the permitted limits and therefore comply with the requirements of Directives 2011/65/EU and 2015/863/EU.

Declaration of conformity REACH (1907/2006/EU)

Where applicable and necessary, our suppliers are involved in the information process and provide us with the relevant self-disclosure information when required. To the best of our knowledge, ELPRO does not have any hardware solutions that contain Candidate List (SVHC) substances above 0.1 percent by mass. ELPRO itself does not use any chemicals/substances on the Candidate List during production.

Note

The above information is based on our current knowledge and experience and the state of legislation at the date of issue. They have been prepared to the best of our knowledge.

If you have any questions, please contact swiss@elpro.com.
